

WATER & WASTE WATER TREATMENT SOLUTIONS

Your trusted partner for all water treatment solutions

💧 Clean Water | 🌱 Sustainability | ✅ Compliance | 🔧 Reliability | ♻️ Future-ready Solutions

BHARAT ENGINEERING AND SERVICES PVT LTD
An ISO 9001:2015, ISO 45001:2018 Certified Company

OUR OFFERINGS

Sewage Treatment Plants (STP):
ASP, MBBR, SBR,
MBR Technology

Effluent Treatment Plant (ETP): Industrial
Waste Water
Treatment, ZLD

Water Recycling & Reuse – Tertiary
treatment, polishing,
UF/RO systems

Drinking Water Treatment – Filtration,
softening, RO,
disinfection

Sewage Treatment

We offer customized solution specifically for your needs

ASP (Activated Sludge Process): Proven, cost-effective solution for organic load reduction.

MBBR (Moving Bed Biofilm Reactor): Compact, low-maintenance, and efficient for variable loads.

SBR (Sequencing Batch Reactor): Ideal for batch operations with high-quality effluent.

MBR (Membrane Bioreactor): Combines biological treatment with membrane filtration for superior output.

Effluent Treatment

Our Commitment towards your requirement is utmost

Custom-designed ETP systems for various industries.
Removes chemical and biological impurities.
Zero Liquid Discharge (ZLD) for sustainability.
Integration with RO and evaporators

Water Recycling & Reuse

Tertiary Treatment & Polishing for reuse.

UF and RO technologies reduce freshwater dependency.

- Sustainable and cost-effective solutions.

Drinking Water Treatment

Multi-stage filtration and softening systems.
High-efficiency RO for contaminants removal.
UV, chlorination, and ozonation for disinfection

Why Us

- End-to-end solution provider (Design to O&M).
- Proven track record of successful projects..
- Customized, energy-efficient solutions.
- Compliance with CPCB/SPCB norms.
- Strong after-sales service & support.

Our Commitment

After Sales Support.
Eco-friendly and compliant operations.
CPCB and Pollution Board certified systems.
Energy-efficient automation.
Timely delivery and long-term reliability.
